### **2021 Shministiyot Letter: EBCO signs the International Solidarity Declaration in support of the Israeli conscientious objectors**

Brussels, 15 January 2021

On 5 January 2021 sixty Israeli teenagers published an open letter addressed to top Israeli officials, in which they declared their refusal to serve in the army in protest of its policies of occupation and apartheid. The so-called "[2021 Shministim Letter](#)" decries Israel's military control of Palestinians in the occupied territories, referring to the regime in the West Bank, Gaza Strip, and East Jerusalem as an "apartheid" system entailing "two different systems of law; one for Palestinians and another for Jews."

"It is our duty to oppose this destructive reality by uniting our struggles and refusing to serve these violent systems—chief among them the military," reads the letter, which was addressed to Defense Minister Benny Gantz, Education Minister Yoav Galant, and IDF Chief of Staff Aviv Kochavi.

"This is a great hopeful start of 2021" EBCO's President Alexia Tsouni stated today. "EBCO welcomes this inspiring initiative of these courageous Israeli teenagers and signs today the [International Solidarity Declaration](#): EBCO stands together with the Shministiyot (Israeli high schoolers) who are refusing to serve in the Israeli military. As people of conscience around the world, we share their commitment to solidarity, deep care for all people, and recognition that systems of oppression were created by people and can be dismantled by people. In refusing to take part in the Israeli government's occupation and by rejecting militarism and settler colonialism, the Shministiyot are demonstrating solidarity with the Palestinian people who live under occupation, as well as with Palestinian refugees and their descendants in the exile. It's our responsibility as a global community to support those who see injustice in their own societies and choose solidarity instead."

The sixty Israeli teenagers are calling for high school seniors (shministiyot) their age to ask themselves: "What and who are we serving when we enlist in the military? Why do we enlist? What reality do we create by serving in the military of the occupation? We want peace, and real peace requires justice. Justice requires acknowledgment of the historical and present injustices, and of the continuing Nakba. Justice requires reform in the form of the end of the occupation, the end of the siege on Gaza, and recognition of the right of return for Palestinian refugees. Justice demands solidarity, joint struggle, and refusal."
